ASO & conversion: App Store and Google Play metadata · store A/B tests (PPO) · custom product pages · In-App Events · web-to-app CRO (CTAs, Smart Banners, package upsells)

Analytics & tools: GA4 · Google Search Console · GTM · AppsFlyer · Firebase · BigQuery · SQL · Python · Looker Studio · Ahrefs · Semrush · Screaming Frog · ContentKing · Sensor Tower · AEM · WordPress · Shopify

PROFESSIONAL EXPERIENCE

ELSA Speak — **Senior Manager, SEO & Organic Growth** Mar 2026 – Present

AI English-learning app · 8 websites (Global, JP, VN, TH, TW, HK, BR, ID), 70K+ indexed pages · core markets JP, VN, TH, TW, US

- Own SEO, AEO and ASO strategy and the organic channel's install and revenue KPIs across Japan, Vietnam, Thailand, Taiwan and the US; lead 1 digital marketing specialist and 3 SEO specialists and coordinate 10 freelancers.
- Run technical SEO for all 8 sites with the development team – crawlability, indexation, site architecture, metadata, structured data and Core Web Vitals – including component-level fixes and programmatic SEO templates.
- Brought ASO in-house: plan the annual ASO and In-App Events roadmap, localise metadata and screenshots across 8–10 app-store markets, test store creative through Product Page Optimization and tailor Custom Product Pages to campaign audiences.
- Run CRO on the web-to-app path (homepage and blog CTAs, package upsells, sitewide Smart Banners), evaluating each change pre/post against historical data; partner with CRM teams on install-to-trial and trial-to-subscription journeys.
- Built an education hub with free tools and article-specific study sets for product discovery and web-to-app conversion; track AI share of voice across Google AI Overviews, ChatGPT and Perplexity.

Key Achievements

- **913K organic Android installs in Q3 2026** (100.3% of target, +10% QoQ) alongside **US$140K in website revenue**.
- Web-to-app installs from the 27 tracked web sources reached **47,575 in Q3 2026** (95.2% of the 50K target, +48% vs Q2), rising every month from 13.3K in July to 17.9K in September.
- Moved "english app" from **#2 to #1 in the US App Store** through keyword, search-intent and competitor analysis and metadata localisation.
- Audited 70,075 indexed pages – 54,969 404s, 14,330 canonical errors, 2,878 redirects, 3,020 schema errors – and prioritised fixes with developers; **~80% of audited issues resolved**, with 1,020 duplicate pages being merged.
- Found an AppsFlyer attribution method that overstated SEO installs **~10x** and corrected it; fixed a domain-exclusion issue that blocked Smart Banners by separating workspaces by subdomain.
- Built a ~20K-URL semantic database for deduplication and clustering; ChatGPT and Copilot referral installs rose from ~150 a month (Mar–Apr 2026) to ~2,100 a month in Q3 (6.3K, reported separately from the KPI).
- Led the Global and Japan website revamp (Mar–Jul 2026) with Design, Product, Development and Brand, from backup and setup through staging, testing and production rollout.

LUMEtest (LUME) · PTE Magic — **SEO Lead & Email Marketing Specialist (Contract)** Sep 2025 – Present

AI English test prep (PTE Academic, PTE Core, Duolingo English Test) · Next.js + headless WordPress, 538 posts in 4 locales

- Lead organic growth, including an AEO-aware content strategy around mock-test, scoring and score-improvement queries that feeds both organic demand and the paid conversion funnel.

- Run technical SEO through an AI-agent audit workflow: route Next.js fixes to developers as tickets and apply content-layer fixes through the WordPress REST API.
- Build email automation and lifecycle campaigns that move free-trial users to paid plans, segmented by exam type and study stage.

Key Achievements

- Grew monthly Google Search clicks from **18.7K to 25.6K (+37%)** and impressions from 786K to 1.56M between Sep 2025 and May 2026.
- Ran a 5-round technical audit (39 findings: duplicate slugs behind self-canonicals, 251 non-English URLs declaring lang="en", AI crawlers blocked at Cloudflare, missing schema); cut orphan posts from **103 to 11** and added 193 internal links.
- Rewrote all 538 meta descriptions and 136 titles, prioritised by clicks.

Mindful Organization — SEO Manager & IT Support (Contract)

May 2024 – Jun 2026

Wellness brand · WordPress, Shopify, Strapi

- Owned SEO, AEO, conversion and technical site operations across WordPress and Shopify for a wellness community brand.
- Wrote GA4 purchase and dataLayer e-commerce tracking (PHP + gtag) for paid subscriptions across 6 membership levels; connected WordPress and Shopify through REST APIs; used Mixpanel to locate funnel drop-offs.
- Shipped site features, banners, ad-manager tracking code, interactive content and free tools; built signup forms, pop-ups, gated content and Zapier lead-capture workflows.
- Supported developers on the WordPress-to-Strapi headless migration, coordinating SEO requirements, content continuity and migration QA.

Key Achievements

- Ranked **#1 on Google for "meditation"** (34K monthly searches) while store-wide sessions grew **145% YoY** and sales **114% YoY to US$412.5K** (Shopify, all channels, Jun 2024 – Jun 2025).
- Raised Core Web Vitals compliance from **5% to 90%** of pages and reduced page errors to near zero; Lighthouse Performance 94 and SEO 100 (LCP 2.6s, CLS 0.008).
- Restructured 1,211 of ~5,000 pages for query fan-out and chunk-level retrieval; AI citations grew from **768 to 12,465**.
